WOMEN'S LECTURE SERIES IN KASLO

This ~~series of~~ lectures, arranged and coordinated by Wendy Hurst of Selkirk College, will be available in Kaslo this fall. Wendy feels there is something here for everyone, whether they want some practical information about physical and mental health, legal information, the problem of rape and self-defense, or whether they want some mental stimulation through topics such as images of women in fiction or women's history in the Kootenays. For each topic there will be a resource person who will lead the discussion and answer questions. Wendy hopes that this casual format, rather than formal lectures, will enable participants in the series to get to know each other as well as the resource person.

The series will be held at 7:30 p.m. on Wednesday evenings, beginning Sept. 20th in Kaslo.
