Dear Irwin and Zöc, Under The Volcano Festival Producers

The West Kootenay Women's Association and Nelson and District Women's Centre were the grateful recipients of several complimentary tickets to the films and opening reception for the 4th Annual Kootenay Moving Pictures Film Festival.

The films at this year's festival were a stimulating and

line up. The workshop for Women in Film was inspiring. I appreciated Katherine Dodds' refreshing, honest and critical analysis of the beauty industry and its role in the exploitation of women.

Thank you for the obvious thought and consideration that went into the local production of this year's festival. The sliding scale prices, complimentary tickets and childcare arrangements provided the opportunity for financially challenged women, their kids and some hardworking volunteers to enjoy the festival.

Thanks for all your efforts,

Louisa Robins
