5450, University Boulevard,  
Vancouver,  
B.C. V6T 1K4

August 7th, 1989.

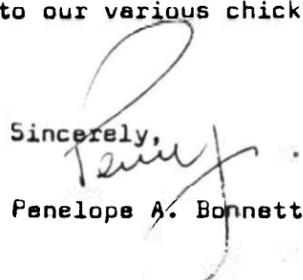

Dear Dr. Fulton,

Thank you for your letter together with the cheque of \$250 for our Building Fund. Unfortunately, my news is not good. The house has been purchased by another non-profit organisation in our community. Our immediate prospects for buying a property are minimal due to a reduction in funds for the Women's Centre and now the closure of our Womenworks project as of September 30th.

My question for you, therefore, would you like us to return your donation seeing we are unable to use it for the purpose we intended at least in the near future. If you decide to let us leave the money in the Fund I will arrange to send your official receipt along.

When you are back in Nelson please make contact as we will be happy to introduce you to our various chickens.

Sincerely,

  
Penelope A. Bonnett.

Dear Lenny,

It was very good to meet you in Nelson. I hope you went ahead, took a leap of faith and bought the house. No doubt if you approached the original owners and bi-passed the Real Estate Agents you would get a much better price. I agreed to help out and will pledge \$1,000 in instalments of \$250 over the next year. As you know the requests for money are legion and all good causes, but I'm gradually deciding to donate only to women's causes. You just have to keep beating the bushes in order to raise money. I've sent out a number of your flyers, but most women are donating closer to home.

Best wishes

P.S.

Thanks for the breakfast. It was great to meet your team. Next time I want to meet your chickens! Sounds great.
